- **AgroBuy – An Online Fertilizer Purchasing System for Farmers**

<https://github.com/surajgoture216-maker/AgroBuy>

Built a full - stack web platform for farmers to buy authentic fertilizer online using HTML, CSS, JavaScript, Bootstrap for frontend and Spring Boot with MySQL for backend ,handling authentication ,product catalog, cart and order management. Ensure reliability through comprehensive unit, integration, and system testing across key modules. Technologies : HTML CSS, JAVASCRIPT , JAVA SPRINGBOOT , MYSQL.

- **Pre-Delivery Inspection (PDI) System | Node.js · Express.js · MySQL·REST API**

<https://github.com/surajgoture216-maker/PDI>

Built the backend for a web application that manages PDI for heavy machinery. Created REST APIs using Node.js and Express.js with a well-structured layered architecture to handle Dealers, Inspectors, Machines, and PDI records. Designed a MySQL database to store detailed inspection data across 17+ sections like engine, hydraulics, and safety checks. Added Swagger for APIs documentation.

- **Shree AI – Intelligent Professional Profile Assistants(Ongoing)**

Shree AI is an intelligent professional profile assistant designed to answer questions related to my education, internships, projects, skills, certifications, and professional achievements . The application provides context- aware responses based on structured personal data and uploaded documents. The system features guided knowledge management, allowing skills,projects, achievements,certifications and career milestones to be added through user interactions. Future enhancements include Retrieval- Augmented Generation (RAG), document processing and resume generation. JavaSpring Boot ,Spring AI, Angular, and MySQL .
